

# My Imagination Tree

Think about a project you are working on. Think about what you need to do. Imagine how nice it will be when you're through. Use your imagination to make a picture of your goal. Say "yes" to success.

Directions for making your own imagination tree.

1. What do you need before you start? Do you need supplies or special tools? Those are like the roots of your imagination tree. Draw the roots and include pictures of your supplies or special tools.
2. What are the steps you'll need to take to complete your project? Those steps are like the trunk and branches of your imagination tree. They get you from the bottom to the top. Draw your trunk and branches and include the steps you need to take.
3. Think about what the imagination tree will look like when it has finished growing. Draw the leaves of your tree and include a picture of what your project will look like when its complete.

*On a separate sheet of paper, write a story about how it will be when you reach your goal. What will you see when your project is over? How will you feel when you're finished? What will other people say? What will they do?*
